

I receive many benefits from my XM Satellite radio. That is why I pay monthly for the service. If I don't wish to listen to endless commercials, wait for ads to finish, etc. to get the information I need. It is a shame when a large organization like the National Assoc of Broadcasters attempts to interfere with my rights to listen to whatever station I see fit. Especially if I am paying for this service, they have no business in what I am listening to. I respectfully urge you to reject the NAB's petition 04-160.
Thank you.
